As approved Alternate Acoustics Advisor for the Sydney Metro City & Southwest project, I have reviewed and provided comment on the Construction Noise and Vibration Management Plan (CNVMP) for the Sydney Metro Upgrade, as required under A27 (d) of the project approval conditions (SSI 15-7400).

I reviewed and commented on previous revisions of the CNVMP. This revision 13 includes amendments that were of a minor nature and are consistent with the terms of approval and the document approved by the Secretary.

I am satisfied that such amendments are necessary, approve revision 13 of the CNVMP (dated 13 June 2023), and consider that the document is appropriate for submission to the Secretary for information.
